INTRODUCTION

One of the major challenges that the Institute faces is to retain its position of excellence, and to improve upon it. In addition to academic talent, it requires substantial financial resources for continued modernization of facilities and removal of obsolescence. The Government of India, through the MHRD continues to be the primary source of funds for the Institute. Sponsored projects, industrial consultancy and Continuing Education Programs contribute a small portion to meet our annual expenditure.

B.1.2. SHAILESH J. MEHTA SCHOOL OF MANAGEMENT

Since its establishment in 1995, the Shailesh J Mehta School of Management has emerged as a significant player in management education in the country. The year 2009 was marked by a further strengthening and consolidation of academic programmes of the School, and an increase in full-time faculty strength. The School functions as a self-funding entity, and also contributes a significant and growing amount to Institute corpus.

A total amount of US \$ 1476224 (Rs. 6,89,99,968 or approximately Rs. 69 million) has been received from Dr. Shailesh J. Mehta {Alumnus, B. Tech. (Mech. Engg.) 1971} towards creating Endowment funds at IIT Bombay. An amount of approximately Rs. 25 million has already been spent as part contribution towards the creation of a modern residential facility for the Continuing Education Program (CEP). The remaining amount of Rs. 44 million has been utilized to create six Endowments for different purposes. The following table describes the six Endowments created and the allocation corpus of each.

Endowments and Allocation corpus

C. FACULTY DEVELOPMENT

C1. CHAIR PROFESSORSHIPS

Chair Professorships are distinguished academic positions of the Institute and are conceived as an academic honour to recognize outstanding teaching and research achievements of the permanent faculty. They can also be used to attract outstanding academicians to join the Institute from outside. Chairs are supported by endowments created from donations to the Institute.

Establishment of new Chair Professorships is essential for IIT Bombay to attract and retain high quality research Faculty, which are one of the key elements required to fulfill the goal of the Institute to be a leading International Research University. Chairs will also lead to the establishment of new areas of specialization through the recruitment of accomplished researchers in specific fields of study.

The endowment for a Chair is currently Rs. 60 lakhs. Interest from the endowment is used to meet expenses of the Chair, which include a monthly honorarium (Upto Rs.20,000/-) and contingency expenses (Upto Rs.50,000/-). The salary of the Chair Professor and all other benefits (housing, medical etc.) are borne from Institute funds. Donors will have the prerogative of naming the Chairs. The broad area of specialization for instituting the Chair may also be specified by the donor. The list of presently existing Chairs at IIT Bombay is as follows:

LIST OF NAMED/INSTITUTE CHAIR PROFESSORS IN THE INSTITUTE

C3. ENDOWMENT - FACULTY DEVELOPMENT FUND (Class of '87)

The Class of '87 had started a fund collection drive at the time of their tenth year re – union. The funds were targeted at Faculty Development. Funds were raised in India and US. The statement below gives the current position of the Endowment.

It was decided by the representatives from the Class of '87 that the endowment fund for Faculty Development would be utilized as per the following guidelines. The responsibility for selecting the Faculty for extending assistance has been entrusted to the Institute Advisory Committee constituted for purposes of examining requests for assistance to present papers at International Conferences.

C4. ENDOWMENT – EXCELLENCE IN TEACHING AWARDS

The 'Excellence in Teaching Award' was approved by the Senate in its 136th meeting held on 4th December 1996 with a provision for 8 awards every year. The 8 awards recommended were among the following lines:

Common core courses (B. tech. Program)	-	2
Departmental B. Tech. Programs	-	3
Post Graduate Programs	-	2
M. Sc. Programs	-	1

The award process has been fully streamlined and these awards have come to be highly valued by the Faculty. The procedure of selection of these awards is as follows:

- Questionnaire for student feedback for identification of the Faculty for Excellence in Teaching Awards is given to all passing out students
- Faculty involvement is minimal except as the Convener of Staff/ Student Committees for conducting the assessment
- Acquisition of the feedback form from the students and calculation of the scores
- Review by a committee consisting of the Dean - Academic Program, Dean - Faculty, two Heads of the Departments and two student representatives
- Feedback from the Alumni (if feasible)

The Excellence in Teaching Awards were conferred on the following Faculty members –

S.No.	Name of Faculty	Name of Department	Amount (Rs.)
1.	Prof. Alok Goyal,	Civil Engineering	20,001.00

C5. FACULTY HOUSING PROJECT - CLASS OF 77

Class of 1977 has donated Rs. 85,16,514 between 2002 and March 2011. They have made additional donations, after March 2011.

Ananta – a 16 stories building with 60 flats – was the latest faculty house built by IIT Bombay. This building was completed in 2006 and is fully occupied. Class of 1977 donations have been used for the construction of this building. The cost of building Ananta was Rs. 14 crores. Two more buildings like Ananta are currently under construction, along with a couple of slightly smaller ones.

C6. ENDOWMENT – YOUNG FACULTY JOINING BONUS

The “Young Faculty Joining Bonus”, a Class of '82 Legacy Project, came into being on July 7, 2007 when the Alumni met the senior IITB Professors in the PAN – IIT meeting in Silicon Valley. Class of '83, 84 and 85 have now joined this project. Nomura has also given Award to Young Faculty's. The legacy project focuses on supporting young Faculty in their academic pursuits for the following reasons –

- Attracting good young Faculty to replace retiring Faculty and to augment current Faculty is a key element for IIT to maintain its long term competitiveness
- IIT is increasingly competing with private engineering colleges who have more latitude with their higher pay scales
- While IIT can never match Industry pay scales, a small “delta” during the initial years helps the Faculty and their family and shall make IITB more competitive compared to other Academic Institutes, thus making a tremendous impact in the long term
- IITB's experience indicates that once Faculty members join IIT, they rarely quit. Hence, supporting the recruitment of junior Faculty can also help boost IIT's chances of recruiting the best talent

D. INFRASTRUCTURE DEVELOPMENT

D1. VICTOR MENEZES CONVENTION CENTRE (VMCC)

The construction of Convention Centre commenced on July 18, 2007. The work order amount is Rs. 19.47 crores.

The Convention Center will house the following facilities:

300 Capacity Lecture Hall	- 1
150 Capacity Lecture Halls	- 6
40 Capacity Lecture Halls	- 10

Other supporting facilities will include VIP Lounge, Conference Hall, Cafeteria, and Pantry. The building will also house some laboratories from the Civil Engineering Department that were part of the 'Civil Annexe' building which was razed to locate the Convention Center.

IIT has spent Rs. 40 Crores on this project and it is complete. Contractors have started facilities handover in stages.

VICTOR MENEZES CONVENTION CENTRE

D2. D S Foundation Gymkhana

Students Gymkhana – Phase I at IIT Bombay will consist of construction of Indoor Stadium and Olympic size swimming pool.

Indoor Stadium: The multipurpose stadium can be used to host tournaments in Basketball, Volley Ball, Badminton and Table Tennis. It shall have a seating capacity for 1500 spectators. It will have a small stage and can also be used for cultural programs.

Swimming pool shall be of Olympic size (50 M X 25 M). It will have a filtration system using Ozone treatment, In addition to the main pool, a paddling pool shall be provided for children and beginners (15 M X 10 M).

The Project Architects are Shashi Prabhu & Associates and the Contractors are Advance Construction Pvt..Ltd. The work order amount was Rs. 17.14 crores. Work commenced on the project on Oct. 7, 2007. The Project has been Completed and handed over to Estate office, IIT Bombay.

Project is complete. Bharat Desai and Class of '75 alumni played there on 5th Oct. '10. The Total Project cost was Rs. 14 crores plus.

(1) CLASS PROJECTS

E1.1 ENDOWMENT – HOSTEL MAINTENANCE (Class of '72)

The Alumni from the "Class of '72" have set up an endowment fund for Hostel maintenance through Alumni donations.

Financial Report

Particular's	Amount (in Rs)
Opening Bal. as on 01-04-2010	21,28,854.00
Add: Interest Earned	2,01,787.00

The amount has been invested in Fixed Deposit and the interest earned is being transferred to the Hostel Development Fund for maintenance of hostels.

The Institute deeply appreciates the efforts of Alumni in mobilizing donations for Hostel Maintenance. The contributions from Alumni serve to catalyze the Institutional efforts towards appropriation of funds from its internal resources towards maintenance and upkeep of hostels.

E1.2 ENDOWMENT – "GURUDAKSHINA" PROJECT (Class of '83)

The Class of '83 celebrated their Silver Jubilee Reunion on December 27th, 2008. With a view to express their gratitude to their teachers, the batch initiated a legacy project which is called the "Gurudakshina" Project. The corpus allocation of this fund is Rs. 1 crore. It has been decided that 50% of the corpus will fund the "Young Faculty Joining Bonus" and 50% will be used to fund the "Faculty Development Programme".

E2. OTHER PROJECTS/ ENDOWMENTS

E2.1 SUMAN MASHRUWALA ADVANCED MICRO MECHANICAL SYSTEMS LABORATORY

Suman Mashruwala Advanced Microengineering Laboratory was inaugurated by our Alumnus, Mr. Raj Mashruwala, on 13th April 2007. Mr. Mashruwala has generously donated for setting up the Suman Mashruwala Lab. The laboratory hosts several state-of-the-art equipments including Microstereolithography, Excimer laser micromachining, MicroPIV, and Micromap 5010. The ongoing research activities in this lab span several areas including Microstereolithography, MEMS, Microfluidics, Micromechanics etc.

The Suman Mashruwala MEMS laboratory project was initiated with clear research and teaching deliverables. The specific objectives are as follows:

- To create a laboratory to trigger the young minds of undergraduate students by exposing them to the world of micromechanical systems simulation and experiments
- To create the infrastructure needed to start fundamental and applied research in the areas of engineering design, manufacturing and thermal & fluid technology related to MEMS
- To create a unique state-of-the-art facility in the Institute

E2.2 ENDOWMENT – WADHWANI ELECTRONICS LABORATORY

Replace the current narrative with the following :

Wadhvani lab in the EE department of IIT Bombay is now an established brand name, thanks to a generous donation from the Wadhvani Foundation which made it possible to improve the infrastructure, procure instruments (including high-end instruments), hire competent manpower for establishing and maintaining the facility, etc. In early 2011, the Wadhvani Foundation renewed the grant (additional \$ 390,000 for a period of next five years). In this phase, the following activities are planned:

a. Outreach: It is planned to make the Wadhvani lab facilities accessible to students and teachers in other engineering colleges in the country through the "Virtual Labs" project from the Ministry of Human Resource Development, Govt. of India. Some of the activities in this category are:

- Remote use of DSP hardware
- Use of low-cost CPLD boards (developed in the Wadhvani lab) for conducting experiments in Digital Electronics.
- Conducting experiments in electronics from a remote location using set-ups in the Wadhvani Lab.
- Simulation based supplementary exercises for enhancing the learning experience.

These projects have already started and are expected to be completed by December 2012.

b. New equipment/facilities: The following new facilities will be added to the lab to enable advanced experiments and projects:

- Reconfigurable hardware lab with the latest FPGA boards, etc
- Instruments will be procured for conducting advanced experiments in communications.

c. WEL challenges: A new initiative has been launched to encourage students to take up ambitious projects on a voluntary basis. Over the next few years, some of these projects are expected to be taken up to the product level. Currently, two projects are being carried out as "WEL challenges":

- Finger print recognition system.
- Gaming and other applications using an intelligent camera system

A project on an intelligent display device for school children is expected to start soon.

d. Workshops to share teaching material developed in WEL: In the next five years, about 20 workshops will be organised to interact with college teachers and to share the teaching resources being developed in the Wadhvani lab.

E2.3 ENDOWMENT – LIBRARY JOURNALS & SCI - FINDER

The Central Library, IIT Bombay is one amongst the six major technological libraries in the country in the area of Science, Engineering and Technology. It has completed 50 years and has built a large collection of books, journals and CDs. It also has a rich collection of resources in electronic media available locally on the Institute Intranet and accessible on the Web. It caters to the needs of large groups of users including more than 5000 students including 1000 research scholars, 400 Faculty and a large number of supporting staff. It has computerized all its house keeping activities using software developed in – house that is being maintained and updated regularly. It uses state – of – the – art technology in its functioning and services.

IIT has received substantial contributions from Alumni through IIT Bombay Heritage Fund towards ‘Endowment for Library Journals’. This augmentation has not only eased the ever worsening situation vis – a – vis Library funding due to an unfavorable exchange rate and growing costs of Journal subscriptions, but has also given strong impetus to new areas of research, thus enriching the research output of IIT Bombay Faculty and research scholars. The list of journals subscribed using this Endowment is appended.

E2. 4 PROF. S. P. SUKHATME ENDOWMENT FUND

Prof. S. P. Sukhatme is professor Emeritus I the Mechanical Engineering Department of IIT Bombay. He has been a faculty member at IIT Bombay since 1965 and served as the Director from 1995 to 2000. He also served as the chairman of the Atomic Energy Regulatory Board from 2000 to 2005. Professor Sukhatme is known for his contribution to teaching and research in the fields of heat transfer and energy, and has been recipient of many honors. He was awarded Padma Shri by the Government of India in 2001.

From S. P Sukhatme fund, there is a launch of “ **Monastery, Sanctuary, Laboratory – 50 years of IIT Bombay**” written by Mr. Rohit Manchanda and also came up with Prof. Arun Inamdar’s “ **Salt’n pepper**” and “**Four Decades at IIT Bombay – Recollections and reflections**” by prof. S. P. Sukhatme in conversation with Mr. Rohit Manchanda

E2.6B. Prof. K. C. Khilar Distinguished Fellowship Lecture :

Prof. K. C. Khilar Distinguished Fellowship started in the Memory of Prof.K. C. Khilar , Chemical Engg. Dept. Professor Kartic C. Khilar had a long association with the Chemical Engineering department at IIT Bombay. Prof Khilar joined IIT Bombay in 1982 after earning a Ph. D. from the University of Michigan, Ann Arbor, USA. He had an MS. from Drexel University, Philadelphia, USA and a B. Tech. From IIT Kharagpur. He had a distinguished career at IIT Bombay doing cutting-edge research in the areas of flow in porous media, colloids and interfaces and nanotechnology. More importantly he inspired a culture of research in a whole army of young faculty members who joined the Institute after him. Indeed, his entry in the Chemical Engineering department marks the beginning of a new era in its history, during which a modern, research-based work culture developed. He was also an excellent teacher involved in the teaching of core fluid mechanics courses as well as an array of electives on reservoir engineering, inter-facial science and transport in porous media. He was loved and respected by the students he taught, and touched the lives of innumerable students, colleagues and friends. In addition to his academic achievements, Prof Khilar held many important positions in the Institute including the Head of the Chemical Engineering Department and then later Head of the Center for Research in Nanotechnology and Nanosciences (CRNTS), Professor-in-Charge of the Continuing Education Cell, Chairman JEE and the Dean (Research & Development).

Prof Khilar passed away on 13 November 2009. In view of his significant contributions to IIT Bombay both in teaching and research, and the love and affection he showered on several generations of students and colleagues, an endowment fund is set up for a annual '**Professor Kartic C. Khilar Distinguished Fellowship**' in the Chemical Engineering Department. The target amount for this corpus is Rs. 45,00,000 (a little over US\$ 1,00,000).

E2.6C. Prof. C. V. Seshadri Lectures

The late Professor C.V. Seshadri (CVS to all) was a distinguished Chemical Engineer. He did his Ph.D. With Professor Herber L. Toor of the Carnegie Institute of Technology (now Carnegie Mellon University), followed by a Research Associateship at MIT. He joined IIT Kanpur as a young Assistant Professor in 1965, and later became a Professor of Chemical Engineering and Head of the Chemical Engineering Department there. Finally he became the Dean of Students Affairs. While there, he wrote the famous best-selling text-book: C.V.Seshadri and S. V. Patankar, Elements of Fluid Mechanics, Prentice Hall of India, New Delhi, 1971. He then went on to join industry and head a Research Centre in Chennai. A Chair Professorship has been set up in his name at IIT Kanpur.

The second institute distinguished lecture (in memory of Prof. C V Seshadri) was held on August 17, 2011 at 5:00 pm in the Victor Menezes Convention Centre, IIT Bombay. The speaker for the lecture was Dr. Ashutosh Sharma, Institute Professor, Department of Chemical Engineering, IIT Kanpur and his lecture was titled "Self-Organized Meso-Fabrication and Functionalities in Highly Confined Soft Materials". Dr. Sharma presented fascinating aspects about functionalities seen in natural bio-systems and how one could mimic those functionalities through interdisciplinary research in materials modeling and fabrication. The talk was very well received. At the beginning of the lecture, Professor Malik, Deputy Director, IIT Bombay spoke about Prof. C V Seshadri and his eminent contributions to chemical engineering.

I. Institute Awards

One of the more interesting activities undertaken as part of the Golden Jubilee celebrations was the 10 Great Ideas Contest. It evoked a tremendous response, with more than 900 entries. The 1st Prize was given to Mr. Sanjeev Shankar of Rs. 5 lakhs for his 'Idea' -- Ubiquitous Planting and Green Bricks and 2nd prize of Rs. 2 lakhs was given to Mr. Dipankar for his ' Idea ' - Electric Lamp Post. Dr.R.Chidambaram, Principal Scientific Advisor, (Govt. of India), chaired the panel of Judges.
